COUPLING ALIGNMENT GAUGE

THE DIAMETER OF THE MEASURING POINT ØD CAN TO BE CUSTOMIZED

MEET INTERNATIONAL STANDARD API 5B

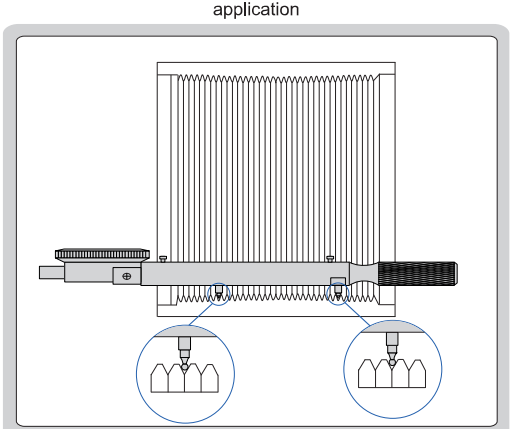

Unit: mm

- Measure the coaxiality error between the axis of coupling threads on casing and tubing with nominal diameter less than 152.4 mm and the central axis
- Optional accessory: ball points (code **6252** series)

application

Code	Movable point stroke	Dial indicator graduation	Accuracy	Repeatability
2268-2G*	±2mm	0.01mm	±0.02mm	0.01mm

*The diameter of the measuring point ØD need to be customized according to the workpiece
